

DCNM-ENCD Electronic name card double sided

DICENTIS

The DCNM-ENCD can display the participant name, the organization logo, and the agenda items. This double-sided electronic name card can replace paper name cards and other content displays. It is easily managed and automatically updated by the DICENTIS system. The electronic name card can be connected to a seat to display the name of a participant. If free seating is available and the participant logs in at another seat, it updates automatically. The electronic name card is easily integrated with the DICENTIS topology. It can be daisy-chained with the DICENTIS cable or star-wired via PoE.

Functions

General

- Double-sided E-ink display.
- Crisp and clear E-ink display with 180-degree viewing angle.
- Supports star and loop-through connection.

Security

- Encryption ensures that information within the system remains confidential.

Controls

- A link button is mounted on the base to make pairing easy.

Interconnections

- Two RJ45 compatible connectors for system communication and power.
- Hot Plug-and-play.

- ▶ Double-sided E-ink display to show participant name, organization logo, and agenda items
- ▶ Very low power consumption
- ▶ Crisp and clear E-ink display with 180-degree viewing angle

Installation/configuration notes
